

renderer::Model::Model

renderer::Model::operator=

renderer::Model::Model

```
graph LR; A[renderer::Model::Model] --> C[renderer::Model::Model]; B[renderer::Model::operator=] --> C;
```

The diagram illustrates a relationship between three components. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'renderer::Model::Model' and the bottom box contains 'renderer::Model::operator='. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right. This gray box also contains the text 'renderer::Model::Model'. The arrows indicate that both the 'renderer::Model::Model' object and the 'renderer::Model::operator=' function are associated with or point to the 'renderer::Model::Model' object on the right.
